Available through [Amazon.com](http://Amazon.com) or [PracticalPsychologyPress.com](http://PracticalPsychologyPress.com)

**Gathering Wisdom** harnesses the years of wisdom amassed by four successful speaking, consulting and training professionals forming the Speakers Quorum: Jerry Fletcher, Cheryl Matschek, Al Siebert and Gail Tycer. These forward thinkers have mastered the hard lessons in life and transformed them into a book that can give you the winning edge in both your personal and professional life.

Striving to find the key to success beyond degrees and corporate experience, this business guide incorporates the perspectives of four business professionals and offers a vision of accomplishment based on leadership, communication, and resiliency. Practical tips for improving such business skills as writing, speaking, and marketing are presented as well as the more abstract dimensions of success, including maintaining integrity with colleagues, seeking out principled leaders, and following an inspired vision. Enhanced professional presentation, resiliency during change, and improved health are just a few of the benefits new professionals can expect to gain from incorporating these nuggets of wisdom into their corporate (and personal) lives.

The concepts chosen by the authors serve as the core lessons they themselves have spent years honing, and as the basis for the knowledge they wish to pass on to entrepreneurs and professionals of all ages seeking to improve their skills and success.
